Cloud Transformation: Understand the Possible

Business Education for Mid-Market to Enterprise Organizations

Cloud-based IT is being adopted and embraced by most enterprises today, with 90% of enterprise workloads expected to run in the cloud by 2020. Hybrid cloud infrastructure enables easy migration of IT services from on-premises environments to cloud environments. This enables enterprises to run workloads where it makes the most sense, based on performance, economics and security priorities.

Train Your Team for the Cloud Era

Making the transition to the cloud can be complicated and daunting. ACTS' Bespoke Learning Workshops provide a customized training experience for your team delivered by ACTS' cloud and business professionals. Our experienced team will create a Bespoke Learning experience customized to your company's needs, providing everything you need to build and manage a cloud environment ideally suited to your unique organizational needs.

"As a broad introduction to the cloud, the course was right on the mark, and the trainer was very knowledgeable."

CXO, Financial Institution

Integration

Developer
Tools

Security &
Identity

Office365/
Productivity

ACTS uses a consultative approach with a business-outcome-focused methodology to help your organization recognize and overcome your most pressing business challenges. Bespoke Learning Workshops are designed to educate your team on the possibilities of cloud transformation to improve business operations and accelerate innovation.

Start Your Cloud Journey on the Right Foot

Bespoke Learning Workshops provide great value before embarking on major new cloud transformation projects, reducing risks and improving the likelihood that projects are delivered on time and on budget. Workshops are also ideal for organizations looking to develop product-focused or enterprise-wide cloud transformation strategies.

How We Deliver

STEP 01: DISCOVERY

ACTS team consults with your team and helps discover and clarify your organization's pressing business challenges and goals for transitioning to the cloud.

"The trainer's insight into business models and Microsoft are valuable resources that can be leveraged by teams to accelerate their engagement with cloud technologies."

– CEO, Financial Institution

STEP 02: PLANNING

We develop a strategic Bespoke Learning content plan using a business-outcome-focused consultative approach in collaboration with key players in your organization.

"Azure has over 100 different technologies, services and concepts. It's important to know how all these things are connected. Because of ACTS' training, our team is now able to decide what areas to focus on."

– Workshop Attendee, VP of Application Development

STEP 03: EDUCATE

Our experts provide onsite delivery of your customized Bespoke Learning program in one, three or five day workshops, based on your needs.

"The most important part was the overview of the different technologies and ways that one can use the cloud and Azure. The real-time analytics, open-sourced gateway architecture, and IoT tools were of particular interest."

– Workshop Attendee, Data Scientist

Key benefits of Bespoke Learning

- Understand and reduce the risks associated with cloud projects
- Develop corporate and project strategies for cloud transformation
- Create an efficient, collaborative process for cloud projects, enabling faster work
- Empower people to understand the art of the possible with cloud
- Share an understanding of cloud terminology and concepts in your organization

ACTS works collaboratively with your team to understand the complexities of your business and develop a personalized Bespoke Learning Workshop that educates your team on cloud-based transformation, innovation and productivity. Our experience spans industries, and your Bespoke Learning Workshop can be targeted to suit any or all levels within your organization.

(Workshops starting at \$5,000, pricing varies based on content, days training, and location)
